Dr. John A. ZuHone: Curriculum Vitae

Personal

Citizenship	United States of America
Address	Harvard-Smithsonian Center for Astrophysics 60 Garden St., MS-67 Cambridge, MA 02138
Phone	(617) 496-1816
E-mail	jzuhone@cfa.harvard.edu
Web	http://www.jzuhone.com

Education

Ph. D. in Astronomy and Astrophysics, University of Chicago 2009

Advisor: Prof. Donald Q. Lamb, Dept. of Astronomy and Astrophysics

Thesis: "Simulations of Binary Galaxy Cluster Mergers: Modeling Real Clusters and Exploring Parameter Spaces"

M. S. in Astronomy and Astrophysics, University of Chicago 2004

B. S. in Physics, University of Illinois at Urbana-Champaign 2002

Honors, Awards, and Named Fellowships

NASA Postdoctoral Program	2011-2014
Department of Energy Computational Science Graduate Fellowship	2004-2008
McCormick Fellowship, University of Chicago	2002-2003
Graduated With Highest Honors in Physics, University of Illinois	2002

Research Interests

Astrophysics

Cosmology; large-scale structure formation; galaxy clusters; intracluster medium; dark matter; X-ray astronomy

Computational Science

Developing numerical algorithms for computational physics; developing visualization and analysis techniques for large datasets; development of scientific software in the Python and Julia languages

Research Positions Held

Kavli Institute for Astrophysics, Massachusetts Institute of Technology
Postdoctoral Research Associate 2014-2015

Astrophysics Science Division, NASA/Goddard Space Flight Center
Postdoctoral Research Associate 2011-2014

High-Energy Astrophysics Division, Smithsonian Astrophysical Observatory
Postdoctoral Research Associate 2009-2011

National Center for Computational Sciences, Oak Ridge National Laboratory
Graduate Research Assistant 2006

Department of Astronomy and Astrophysics, University of Chicago
Graduate Research Assistant 2004-2009

Teaching Experience

NASA/Goddard Space Flight Center, Volunteer Instructor 2014
Python Boot Camp
http://asd.gsfc.nasa.gov/conferences/pythonbootcamp/2014/

Trinity International University, Instructor
Physics 350, "Topics in Physical Science: Astronomy" 2007

University of Chicago, Graduate Teaching Assistant
PHSC 12000, "The Origin of the Universe and How We Know" 2003
PHSC 11900, "Stellar Astronomy and Astrophysics" 2003

University of Illinois at Urbana-Champaign, Undergraduate Teaching Assistant
PHYS 102, "College Physics: E&M & Modern" 2002
PHYS 111, "University Physics: Mechanics" 2002
PHYS 101, "College Physics: Mech & Heat" 2001
PHYS 111, "University Physics: Mechanics" 2001

Professional Service

Review Panel Member
Astrophysics Theory Proposal (NASA)
Chandra X-ray Observatory (NASA)
Astronomy and Astrophysics Research Grants (NSF)

Collaborations

Astro-H Science Working Group

Peer Review

The Astrophysical Journal
Monthly Notices of the Royal Astronomical Society
Proceedings of the Astronomical Society of Japan

Contributions to Scientific Software

FLASH (http://flash.uchicago.edu), co-developer

A multiphysics grid-based simulation code for astrophysics. Assisting in development of the particle, cosmology, multigrid gravity, and magnetohydrodynamic modules for FLASH3 and FLASH4

yt (http://yt-project.org), co-developer

A visualization and analysis software suite for astrophysical simulation data. Assisted in development of FLASH, Athena, and FITS data interfaces; improved capabilities for working with in-memory datasets; developed analysis modules for synthetic observations

YT (http://www.jzuhone.com/yt_julia), sole developer

A Julia (http://julialang.org) wrapper for yt. Used for exposing astrophysical simulation simulation data from a variety of different codes in the Julia technical programming language.

pywwt (http://www.jzuhone.com/pywwt), sole developer

A Python interface to the Microsoft World Wide Telescope (WWT) Windows client. Used for controlling WWT from Python.

Spectral Cube (http://spectral-cube.readthedocs.org/en/latest/), co-developer

A Python package for reading, writing, and analyzing radio "data cubes" in the FITS format. Developed an interface to the *yt* software package.

Computing Proficiency and Experience

Programmming Languages

proficient in: C, Fortran 77/90, Python
conversant in: IDL, Julia, C++

Simulation Codes

FLASH (http://flash.uchicago.edu)
Athena (http://www.astro.princeton.edu/~jstone/athena.html)
Enzo (http://enzo-project.org)

Software and Libraries

Python scientific software: NumPy, SciPy, AstroPy, yt, h5py, IPython
MPI (parallel computing library, http://www.mcs.anl.gov/research/projects/mpi/)
HDF5 (hierarchical data format, http://www.hdfgroup.org)
CIAO (Analysis tools for *Chandra* data, http://cxc.cfa.harvard.edu/ciao/)
XSPEC (X-ray spectral fitting tool, https://heasarc.gsfc.nasa.gov/xanadu/xspec/)
MARX (*Chandra* ray-trace simulator, http://space.mit.edu/CXC/marx/)
Version Control Systems: Subversion, Mercurial, Git
Operating Systems: Linux, Mac OS X, Windows

High-Performance Computing Platforms

"Intrepid" BlueGene/P: Argonne National Laboratory / DOE
"Jaguar" Cray XT5: Oak Ridge National Laboratory / DOE
"Ranger" Sun Constellation: Texas Advanced Computing Center / XSEDE
"Pleiades" SGI ICE X: Ames Research Center / NASA
"Kraken" Cray XT5, National Institute for Computational Science / XSEDE

Recent Invited Colloquia and Conference Participation

"Galaxy Cluster Gas Motions and *Astro-H*: Predictions and Challenges from Simulations." Talk, Snowcluster 2015 Meeting, March 2015, Snowbird, UT

"Chandra, Cold Fronts, and ICM Physics: The Importance of Magnetic Fields." Talk, 15 Years of Chandra Science Workshop, November 2014, Boston, MA

"The Physics of Gas Sloshing in Galaxy Clusters." Astrophysics Science Division Colloquium, NASA/Goddard Space Flight Center, August 2014, Greenbelt, MD

"Simulating X-ray Observations with Python", Talk, Scientific Computing in Python 2014, July 2014, Austin, TX

"The Physics of Gas Sloshing in Galaxy Clusters." Theory Seminar, The Ohio State University, April 2014, Columbus, OH

"The Physics of Gas Sloshing in Galaxy Clusters." Colloquium, University of Illinois at Urbana-Champaign, February 2014, Urbana, IL

"The Physics of Gas Sloshing in Galaxy Clusters." Colloquium, Naval Research Laboratory, September 2013, Washington, DC

"Simulating Radio Mini-halos in Sloshing Galaxy Clusters." Invited talk, Snowcluster 2013 Meeting, March 2013, Snowbird, UT

"The Physics of Gas Sloshing in Galaxy Clusters." Colloquium, Texas A&M University, February 2013, College Station, TX

"The Physics of Gas Sloshing in Galaxy Clusters." Theory Seminar, University of Texas at Austin, February 2013, Austin, TX
