

# Dr. John A. ZuHone: Curriculum Vitae

## Personal

---

Citizenship	United States of America
Address	8800 Greenbelt Rd. Mail Code 662 Greenbelt, MD 20771
Phone	(301) 286-2531
E-mail	<a href="mailto:john.zuhone@nasa.gov">john.zuhone@nasa.gov</a>
Web	<a href="http://www.jzuhone.com">http://www.jzuhone.com</a>
Twitter	<a href="https://twitter.com/astrojaz">@astrojaz</a>
Google+	<a href="https://plus.google.com/+JohnZuhone">+JohnZuhone</a>
LinkedIn	<a href="http://www.linkedin.com/in/jzuhone">http://www.linkedin.com/in/jzuhone</a>

## Education

---

Ph. D. in Astronomy and Astrophysics, University of Chicago	2009
<i>Advisor:</i> Prof. Donald Q. Lamb, Dept. of Astronomy and Astrophysics	
<i>Thesis:</i> “Simulations of Binary Galaxy Cluster Mergers: Modeling Real Clusters and Exploring Parameter Spaces”	
M. S. in Astronomy and Astrophysics, University of Chicago	2004
B. S. in Physics, University of Illinois at Urbana-Champaign	2002

## Honors and Awards

---

NASA Postdoctoral Program	2011-
Department of Energy Computational Science Graduate Fellowship	2004-2008
McCormick Fellowship, University of Chicago	2002-2003
Graduated With Highest Honors in Physics, University of Illinois	2002

## Research Interests

---

### *Astrophysics*

Cosmology; large-scale structure formation; galaxy clusters; galaxy cluster mergers; intracluster medium; dark matter; X-ray and radio observations of galaxy clusters

### *Computational Science*

Developing numerical algorithms for computational physics; developing visualization and analysis techniques for large datasets; development of scientific software for Python

## Research Positions Held

---

<i>Astrophysics Science Division, NASA/Goddard Space Flight Center</i> Research Associate	2011-
<i>High-Energy Astrophysics Division, Smithsonian Astrophysical Observatory</i> Research Associate	2009-2011
<i>National Center for Computational Sciences, Oak Ridge National Laboratory</i> Summer Graduate Research Assistant	2006
<i>Department of Astronomy and Astrophysics, University of Chicago</i> Graduate Research Assistant	2004-2009
<i>Department of Astronomy and Astrophysics, University of Chicago</i> Summer Undergraduate Research Assistant	2001
<i>Department of Physics, University of Illinois at Urbana-Champaign</i> Summer Undergraduate Research Assistant	2000

## Teaching Experience

---

<i>Trinity International University, Instructor</i> Physics 350, “Topics in Physical Science: Astronomy” (undergraduate)	2007
<i>University of Chicago, Graduate Teaching Assistant</i> PHSC 12000, “The Origin of the Universe and How We Know” (undergraduate)	2003
PHSC 11900, “Stellar Astronomy and Astrophysics” (undergraduate)	2003
<i>University of Illinois at Urbana-Champaign, Undergraduate Teaching Assistant</i> PHYS 102, “College Physics: E&M & Modern” (undergraduate)	2002
PHYS 111, “University Physics: Mechanics” (undergraduate)	2002
PHYS 101, “College Physics: Mech & Heat” (undergraduate)	2001
PHYS 111, “University Physics: Mechanics” (undergraduate)	2001

## Grants as Co-Investigator

---

### *National Aeronautics and Space Administration*

ROSES-12: “Investigating Microphysics of Intracluster Medium with Advanced Hydrodynamic Simulations and X-Ray Observations”, PI: Maxim Markevitch, 12-ATP12-0159 2012

## Computing Allocations as Principal Investigator or Co-Investigator

---

### *National Aeronautics and Space Administration*

“Studying the Detailed Physics of the Intracluster Medium in Mergers of Clusters of Galaxies” (SMD-11-2304, SMD-12-3164, SMD-13-4120) 2011-  
PIs: Timothy Kallman, Maxim Markevitch  
NAS Pleiades SGI ICE system (8,355,847 core-hours)

### *National Science Foundation*

“The Formation and Evolution of X-ray Clusters, Galaxies, and the First Stars” (TG-MCA06N030) 2013-  
PI: Greg Bryan  
NICS Cray XT5 (1,184,274 service units)  
TACC Dell PowerEdge C8220 (3,365,832 service units)

“Studying the Detailed Physics of the Intracluster Medium in Clusters of Galaxies with the FLASH Code” (TG-AST100017) 2010-2011  
PI: John ZuHone  
NICS Cray XT5 (1,100,000 service units)

“Exploring the Nature of Cold Fronts in Merging Clusters of Galaxies with the FLASH Code” (TG-AST090037) 2009-2010  
PI: Maxim Markevitch  
TACC Sun Constellation Cluster (1,000,000 service units)

## Contributions to Scientific Software

---

### *FLASH (<http://flash.uchicago.edu>)*

Assisted in porting the particle, cosmology, and multigrid gravity modules from FLASH2 to FLASH3; tested and improved basic functionality of particle and magnetohydrodynamics modules 2005-

*yt* (<http://yt-project.org>)

2010-

Assisted in development of FLASH and Athena code interfaces;  
improved capabilities for working with in-memory datasets;  
developed analysis modules for particle trajectories, mock S-Z and  
X-ray observations; improved FITS image writing capabilities

*pywwt* (<http://www.jzuhone.com/pywwt>)

2014-

Developed a Python interface to the Microsoft World Wide Telescope  
(WWT) Windows client. Used for controlling WWT from Python and  
importing arbitrary event data into WWT.

## **Invited Colloquia and Conference Participation**

---

“Applications of Advanced Numerical Simulations and Analysis in Theoretical  
Astrophysics.” Invited talk, Computational Research in Boston and Beyond,  
October 2013, Cambridge, MA

“The Physics of Gas Sloshing in Galaxy Clusters.” Colloquium, Naval Research  
Laboratory, September 2013, Washington, DC

“Simulating Radio Mini-halos in Sloshing Galaxy Clusters.” Invited talk,  
SnowCLUSTER 2013 Meeting, March 2013, Snowbird Lodge, UT

“Constraining the Transport Properties of the ICM with Cold Fronts.” Talk,  
SnowCLUSTER 2013 Meeting, March 2013, Snowbird Lodge, UT

“The Physics of Gas Sloshing in Galaxy Clusters.” Colloquium, Texas A&M  
University, February 2013, College Station, TX

“The Physics of Gas Sloshing in Galaxy Clusters.” Theory Seminar, University  
of Texas at Austin, February 2013, Austin, TX

“MHD Simulations of Cold Fronts and Gas Sloshing in the Cores of Galaxy  
Clusters.” Invited talk, Cold Fronts in Galaxy Clusters: Sloshing  
Through the Dolomites Meeting, January 2013, Sport & Kurhotel  
at Bad Moos, Sesto, Italy

“Turbulence and Radio Mini-halos in Galaxy Clusters.” Talk, Nature’s Particle  
Accelerators Meeting, October 2012, Annapolis, MD

“Gas Sloshing, Mini-halos, and Thermal Conduction” Invited talk, ICM Theory  
and Computation Workshop, August 2012, Ann Arbor, MI

- “Probing the Microphysics of the Intracluster Medium with Cold Fronts.” Talk, Galaxy Clusters as Giant Cosmic Laboratories Meeting, May 2012, Madrid, Spain
- “The Physics of Gas Sloshing in Galaxy Clusters.” Theory Seminar, University of Maryland at College Park, April 2012, College Park, MD
- “The Physics of Gas Sloshing in Galaxy Clusters.” Seminar, Columbia University, February 2012, New York, NY
- “AGNs and Gas Sloshing in Galaxy Clusters: Wide-Angle Tails and Radio Mini-halos.” Talk, High Energy Views of Galaxies and their Nuclei Meeting, November 2011, Tulum, Mexico
- “The Physics of Gas Sloshing in Galaxy Clusters.” Talk, The Structure of Groups and Clusters of Galaxies in the Chandra Era, July 2011, Boston, MA
- “Testing the Connection Between Radio Mini-halos and Gas Sloshing with MHD Simulations.” Talk, Non-Thermal Phenomena in Colliding Galaxy Clusters Meeting, November 2010, Nice, France
- “Idealized Simulations of Merging Clusters of Galaxies and the Physics of the Intracluster Medium.” Journal club talk, Brown University, October 2010, Providence, RI
- “Simulations of Core Gas Sloshing in Clusters of Galaxies: Insights Into the Physics of the ICM.” Invited talk, The Physics of the Intracluster Medium Meeting, August 2010, Ann Arbor, MI
- “Simulations of Gas Sloshing in Galaxy Cluster Cores: Application to Radio Mini-halos.” Talk, SnowCLUSTER 2010 Meeting, March 2010, Snowbird Lodge, UT
- “Heating in Galaxy Cluster Cores via Gas Sloshing.” Talk, 215th AAS Meeting, January 2010, Washington, DC
- “Cluster Core Heating from Merging Subclusters.” Talk, The Monster’s Fiery Breath Meeting, June 2009, Madison, WI
- “Idealized Simulations of Merging Clusters of Galaxies and the Physics of the Intracluster Medium.” Colloquium, University of Massachusetts at Dartmouth, May 2009, North Dartmouth, MA

## Publications
